

Deepen Activities

1 Crack the codes!

a) $\bigcirc \square - \square \bigcirc = 72$

b) $\square \star + \star \square = 88$

c) $\bigcirc \star - \star \bigcirc = \square$

$\bigcirc = \square$

$\square = \square$

$\star = \square$

2 Write or draw a story problem for an addition with an answer of 99.

Write or draw a subtraction story problem with an answer between 45 and 55.

I will ask a friend to solve mine.

- 3 Use a different number less than 10 for each box.

$$\square + \square + \square = 15$$

How many solutions can you find?

Can you convince your partner you have found all the solutions?

Now try for

$$\square + \square - \square = 15.$$

How many solutions
can I find?
